

Geisha's Road™

English

- Guest Expansion -

Guest expansion is recommended for players who are familiar with the base game. In this expansion, 3 guest tokens of each color are included for each teahouse. Players who leverage their relationships with geisha to strategically win over certain groups of guests will be rewarded with additional prestige points.

✦ Components

◆ 15 Guest Tokens (3 each of the 5 colors)

◆ 2 Reference Cards (double-sided)

✦ Setup

- ◆ In the game setup, place the 3 guest tokens of each color next to the teahouse card of the corresponding color.
- ◆ When restarting a new round, also reset the 3 guest tokens of each color back to the teahouse card of the corresponding color.

✦ Gameplay

- ◆ The game progresses as normal, with this additional rule:

Each time a player plays an Item Card into their tableau with:

- ◆ A value of **1** : they will move the corresponding geisha and **receive 2 guest tokens** from the teahouse that the moved geisha lands.

- ◆ A value of **2** : they will move the corresponding geisha and **receive 1 guest token** from the teahouse that the moved geisha lands.

- ◆ A value of **3 or 4** : they will move the corresponding geisha but **will NOT receive any guest tokens**.

Note: If there are not enough tokens available at the teahouse, take all the remaining tokens available.

✦ Scoring

- ◆ At the end of the game, guest tokens will be scored as follows:

- ◆ For each set of **1/2/3** guest tokens of **the same color**, score **0/1/4** points.

- ◆ For each set of **1/2/3/4/5** guest tokens of **different colors**, score **0/1/3/5/8** points.

Note: Each token can be counted in only one set (either same or different color).
