

## Setup

3 Players: **Red**, **Yellow**, and **Blue**.

You have 3 **Home** spaces. Start closest to the corner (by the **Random Seed** space).

Everyone Starts with **\$75**.

## Navigating the Board

Pick a player to go first.

Roll the dice and move clockwise. The player to your left goes next.

If you end your turn on a **Store** space, you can choose to buy ingredients.

You must be on a **Home** space to plant seeds, harvest crops, put food in your fridge, or cook a meal.

If you overshoot the **Store** or **Home** spaces, you have to keep circling around the board (you can't stop partway through your roll).

Collect **\$25** each time you pass by your **Home** spaces.

If you end your turn on another player's marked **Home** spaces, you can choose to steal 1 crop that is harvesting in their garden.

If you end your turn on a space another player is on, you can choose to steal 1 item they are carrying with them.

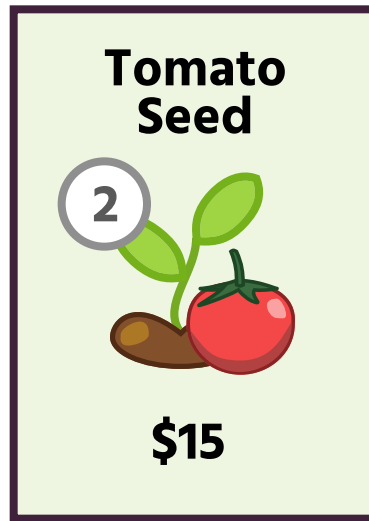

If you end your turn on an **Earn** space, you earn **\$10**.

If you end your turn on a **Random Seed** space, take a card from the **Seeds** deck.

If you end your turn on an **Opportunity** space, take a card from the **Opportunity** deck. The card goes into effect right away.

## Planting and Harvesting Crops

Crops take **2 to 4** turns to grow. Note the number shown on the card (below: 2 turns).

## Chicken

Chicken bought from the store expires after **4** turns.

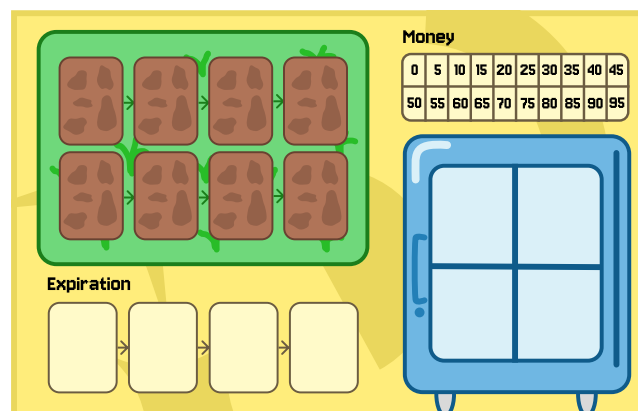

## Storing Your Goods

When at a **Home** space, you can put harvested plants or store-bought items into your fridge. Items in your fridge cannot expire, be stolen, or be destroyed by a flood.

You can only store **4** items in your fridge at a time.

## Tracking Your Resources

Use the resource tracking sheet to track your garden, chicken, fridge, and money.
