

Orange Gumballs

During setup, add 3/4/5 less gumballs for 2/3/4 players of each color and add 12/16/20 orange gumballs.

Orange gumballs may be taken on your turn just like an other color. However, no Instruction Cards are needed to score them. Instead, four points are scored for every orange gumball not touching any other. If two or more orange gumballs are touching each other, lose one point for each orange gumball in that group.

If two orange gumballs are separate, they score four points each (left).

Should you have a group of them, lose one point for every one in the group (minus 3 pts.- right).
