

HIER HEARTS HERE

-RULES-

**Hero Hearts is a Fantasy Card and Boardgame
that turns the luck of the cards into a magical adventure.**

At least 2 to 4 players are suggested.

-HOW TO PLAY-

**Determine who starts the game.
Usually Player 1 going first clockwise around the board.**

**On your turn Lay down 1 Offensive Card to Attack
Each Player face down.**

All Other players lay down 3 Defensive Cards face down. One of which MUST ALWAYS be your Heart Card.

The Attacking Player Picks 1 Defensive card from each Defending player to attack. These are then flipped over along with the attackers offensive card.

Defensive cards will indicate the damage taken based on which attack is done. These Values are given on the bottom of the Defensive Card.

Keep note that not all cards can attack and defend. Some cards are only Defensive or Offensive

Attackers may also take damage indicated by red numbers on the left side of the Defensive card's stat section.

The Health Potion Card can heal a defending player if attacked with the correct card.

Each player that loses all of their Hearts is eliminated. Last person with remaining Hearts wins the game.
