

Tree Toppers

2 players / 5 mins. / 5+

The Christmas Tree is almost fully decorated.
The only thing still missing is the tree-topper.
Who will be the first to put the top on the tree?

Game components

- 2 meeples
- 1 regular die (d6)
- Christmas tree board

Game setup

Each player puts their meeple on the stem of the tree.
The youngest player starts.

Gameplay

When it's your turn, roll the die.

If you don't like the outcome, you may roll the die again, but only once.

The last die roll counts, even if you liked your first roll better.

If you roll **1, 2, 3, 4** or **5**, move your meeple that many steps ahead.

If you roll a **6**, exchange your meeple with the meeple of your opponent.

As soon as you reach the golden tree-topper, you win!

Capturing your opponent

When you land on the field occupied by your opponent's meeple, you capture it.
Move their meeple back until it reaches a golden ornament (at 6 or 12) or the stem of the tree.

Next player

The player who occupies the field with the lowest number is next.
