

How to Play

Test your plant identification skills by playing Plant Press via the rules of the traditional card game, Memory.

Your objective is to complete the full set for each of the 14 plants that grow across the Greater Vancouver region, this includes the illustration, the photograph, the Common and Latin name.

To play the game:

- Shuffle the cards
- Lay them in rows face down
- Turn over any four cards
- If they don't make up a full set, turn them back over
- Try to remember what was on each card and where it was to help you complete all of the sets
- When you match all four cards from a set stack them together on the side of the board
- The game is over when all the cards have been matched

Since cards come in four "suits" you can try modifying other traditional card games like Go Fish, or make up your own rules.

Have fun!

Single player Rules

TableTopia Tips

- You can change the angle of the camera by right clicking and holding to move the surface of the board. If you left click and hold it will move it left to right, or up and down - you will see a camera when you alter the camera angle and position
- To zoom in and out of the board scroll the mouse wheel
- To shuffle the cards right click and select shuffle
- To pick the cards from the deck right click and select take and how many cards you want. Note you can take up to 24 but any number of cards will be grouped together closely.
- To move a single card click a single card and place it. To select multiple cards hold shift and draw a box around the cards to select and move them.
- To return any card/s to the deck, or to create a new pile select and drag the card/s on top of each other and release the mouse when the orange box highlights over them
- To flip a card right click and select flip
- To see the card enlarge in your 'hand' double click on it
- When you have finished playing, or if you want to pause, restart etc. you can click on the Tabletopia logo to choose an option.
