

# Dog & Cat

<i>Spirocerca lupi</i>	
Common Name	Esophageal worm
Infective Stage	Larva 3
Habitat	Esophagus
Mode of transmission	Ingestion of larva 3
Diagnostic Specimen	Feces
Diagnostic State	Egg in feces / Adult in esophageal wall

<i>Gnathostoma spinigerum</i>	
Common Name	พยาธิตัวจิ๊ด
Infective Stage	Advance Larva 3
Habitat	Stomach
Mode of transmission	Ingestion of advance larva 3
Diagnostic Specimen	Feces
Diagnostic State	Egg in feces / Adult in gastric wall

\*\*\* zoonosis โรคติดต่อจากสัตว์สู่คน \*\*\*

<i>Toxocara canis</i>	
Common Name	พยาธิไส้เดือนในสุนัข
Infective Stage	embryonated egg with second stage larva
Habitat	Small intestine
Mode of transmission	Ingestion of embryonated egg with second stage larva
Diagnostic Specimen	Feces
Diagnostic State	Egg in feces

\*\*\* zoonosis โรคติดต่อจากสัตว์สู่คน \*\*\*

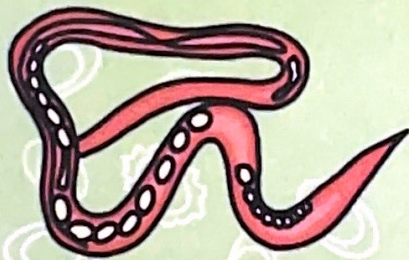

<i>Toxocara cati</i>	
Common Name	พยาธิไส้เดือนในแมว
Infective Stage	embryonated egg with second stage larva
Habitat	Small intestine
Mode of transmission	Ingestion of embryonated egg with second stage larva
Diagnostic Specimen	Feces
Diagnostic State	Egg in feces

\*\*\* zoonosis โรคติดต่อจากสัตว์สู่คน \*\*\*

<i>Toxascaris leonina</i>	
Common Name	-
Infective Stage	embryonated egg with second stage larva
Habitat	Small intestine
Mode of transmission	Ingestion of embryonated egg with second stage larva
Diagnostic Specimen	Feces
Diagnostic State	Egg in feces

<i>Strongyloides stercoralis</i>	
Common Name	Threadworm
Infective Stage	Filariform larvae
Habitat	Small intestine
Mode of transmission	Ingestion of filariform larvae / autoinfection / penetration of filariform larvae
Diagnostic Specimen	Feces
Diagnostic State	Rhabditiform larvae in feces

\*\*\* zoonosis โรคติดต่อจากสัตว์สู่คน \*\*\*

<i>Ancylostoma caninum</i>	
Common Name	Hookworm
Infective Stage	Filariform larvae
Habitat	Small intestine
Mode of transmission	Ingestion of filariform larvae / autoinfection / penetration of filariform larvae
Diagnostic Specimen	Feces in feces
Diagnostic State	Egg in feces

\*\*\* zoonosis โรคติดต่อจากสัตว์สู่คน \*\*\*

<i>Ancylostoma ceylanicum</i>	
Common Name	Hookworm
Infective Stage	Filariform larvae
Habitat	Small intestine
Mode of transmission	Ingestion of filariform larvae / autoinfection / penetration of filariform larvae
Diagnostic Specimen	Feces
Diagnostic State	Egg in feces

\*\*\* zoonosis โรคติดต่อจากสัตว์สู่คน \*\*\*

<i>Trichuris vulpis</i>	
Common Name	Whipworm
Infective Stage	embryonated egg egg with first stage larva
Habitat	Large intestine
Mode of transmission	Ingestion of embryonated egg with first stage larva
Diagnostic Specimen	Feces
Diagnostic State	Egg in feces
