

TAPESTRY

REVISED, ADJUSTED, REBALANCED CIVILIZATION PACK

This pack contains new versions of **all 31 civilization mats** from Tapestry (core game), Plans & Ploys, and Arts & Architecture. These revisions are final. A separate pack containing revised versions of the Fantasies & Futures civilization mats may follow in the future.

This pack also includes **revised versions of 2 capital city mats** from the core game.

Some **new icons** are introduced along the edges of these new mats:

- ✳️ The **Civilization Complexity**: ✳️ Low Complexity, ✳️✳️ Medium Complexity, ✳️✳️✳️ High Complexity. These icons are for guidance only—they have no in-game function.
- 🔄 An icon indicating the **revised mats**. This icon is on each mat in this pack and helps you to distinguish the revised versions from the original versions.
- 🚫 An icon indicating that a civilization mat is **excluded from solo play**.

All of the civilization mats in this pack can be used in your plays of Tapestry, even if you don't own a particular expansion. Note, however, that **AA** *Urban Planners* requires the use of **landmark cards** (included in Plans & Ploys and Arts & Architecture).

You are free to keep the original versions of your civilization mats. However, **we strongly recommend that you use only the updated versions**, as they provide the most balanced experience.

IMPORTANT: Please keep the original versions of the **Historians, Islanders, and Mystics civilizations**. They should be used instead of the revised versions when playing the solo campaign (*The Fate of Atlantis*) from the Plans & Ploys expansion.
