

PLAYER'S TURN:

The player who was born on the year of the pig or looks most like a pig will start the game. After that, the winning player goes first.

- 2** Place any 1 card from your hand, face-down in front of any other player of choice.

OPTIONAL:

- 3** You may also choose to add up to 2 "materials card(s)" from your hand, face-up along side the face-down card "as a way to sweeten the pot or get into people's head."

Note:

You may include added face-up cards at any point, prior to anyone flipping the face-down card. Cards that are not added will remain in your hands until the end of your turn, which will then be discarded. See Section 6, "Ending A Player's Turn."
