

### Kingdom Positions

Take the four cards in the corner: shuffle and deal 1 to each person. This will determine the initial position of each person. Once position is determined put all 4 cards off to the side.

### Positions: Highest to lowest

Crown ~ King

Gold ~ High society

Silver ~ Low society

Bronze ~ Scum

### Setup

Put your peg color by your current position. Positions will change each round, depending on who goes out 1st, 2nd and 3rd.

Scum is responsible for shuffling the middle deck and dealing out 13 cards to everyone. The last 2 cards go to scum and low society.

### The Swap

King and scum will swap 2 cards.

Scum gives their 2 best cards

King gives their 2 worst cards

Low and high society will swap 1 card

Low gives their 1 best card

High gives their 1 worst card

### Play

King will start the game by playing 1-4 of the same cards. (i.e. 2 Jacks or 1 #5 or 3 Kings). The next player will have to play something higher than the previous card played. Hand ends win everyone has had an opportunity to play a card(s) or pass their turn. Last person to play in that hand wins and will start the new hand. Scum is responsible for clearing all cards out the middle.
