**This is an card game with simple rules, to get high score by manipulating the trend ranking.**

## Overview of game

A round takes 6 turns. Each players will be dealt 7 Photo cards and use them to manipulate the trend. Then compete the score with combination of last Photo card which is left in hand and treat.

## Victory condition

First player who earns 2 score token wins the game. Player who saved a card with highest score earns the score token in each round.

## About components

### ①Photo card

This card is dealt to player as hand. There are 6 birds and 6 treat, that makes 36 kinds of card illustrated uniquely.

On four corners of cards, there are icon which indicates bird and treat that is illustrated on card.

### ②Trend card

Cards that will be lined up and shows the current trend ranking.

There are 6 kinds of birds and 6 kinds of treat, totals 12 kinds. Upside of card is Japanese, and backside of card is named in English.

③ Top trend card

Placed on right side of trend ranking area, and indicates which are ranked high.

④ Starting player card

Placed in front of starting player, and shows who are the starting player for the current round.

⑤ Special cards

Special card collaborated with VTuber unit, "Memai Parade".

Used when playing with special rules.

⑥ Score token

Token which the winner of each round earns.

## Set up

- ① Shuffle trend card of bird and treat separately, and line it in the row.
- ② Place top trend card on left side of trend card.
- ③ Shuffle all 36 photo cards, then deal 7 cards to each player faced down. (Remained card will not be used for this round, place it somewhere on the table faced down.)
- ④ Place score token where each player can reach to.
- ⑤ Person who recently posted the photo of bird will be the starting player. If there are more than one person who applies, decide it by fair method such as rock paper scissors. Place starting player card with "OPEN" side faced up in front of starting player.

## Overview of game

This is an card game of hand management and rank manipulation, to aim high score than other players, by using 7 photo cards dealt as hand and manipulate the trend ranking.

## Victory condition

At ending of round, each ranking of bird and treat that are illustrated in only 1 card left in hand will be the score. Player with the highest total score will be winner of the round and earns 1 score token. Player who earns 2 score token first wins the game.

## Sequence of game

This game repeats rounds till either player meets the victory condition.

Each round consists of 6 turns.

Each player takes turn clockwise from the starting player. When each player took action, proceed to next round.

At your turn, act following contents below.

Play a Photo card faced up.

Manipulate trend ranking.

Next player takes turn.

## Details of each actions

Here are details of each actions.

•Play a Photo card faced up from hand.

Turn player plays any Photo card of choice from hand faced up, so that other players can see it.

If the revealed Photo card is already on area, stack it on that card.

※Players need to hold their hand, so they are the only one who can confirm the content of their hand.

*[Example] Player [A] who is the starting player, placed a Photo card from hand to area.*

## Details of each actions

- Manipulate trend ranking.  
Raise 1 and decrease 1 rank of bird either treat which is drawn on played card.

**[Example]** Card which player [A] had revealed had "Java Sparrow" and "Donut" drawn. So player [A] raised rank of "Java Sparrow" by 1, and decreased rank of "Donut" by 1.

At this time, if raised rank of top ranked card (rightmost card), it goes to bottom rank all at once. If decreased rank of bottom ranked card (leftmost card), it goes to top rank all at once.

## Details of each actions

- Shift to next player' s turn.  
After manipulating trend ranking, next player clockwise takes turn.

*Player [A] finished manipulating the trend ranking, turn player shifts to next player clockwise, and player [B] started turn.*

These are details for each turn.  
Take 6 turns, and round finishes when each player' s remaining hand are only 1.  
Then, proceed to score calculation.

## Score calculation

Each player checks the score of bird and treat, that is drawn in a remaining card in hand.  
Confirm each score, and total value will be the score for this round.

## Score calculation

Score gets higher as the rank goes to right, on the other hand, lower to the left. At the top rank, both bird and treat scores 6. As it goes to left the score decreases by 1, so bottom rank is worth 1.

*[Example] Total score of Player[A] are 8, for "Love bird(3)" and "Macarons(5)".*

*From this, Player[B] scored 11, Player[C] scored 11, and Player[D] scored 10.*

After each player finished scoring, player who left card with highest score in hand will be winner for the round, and earns a score token.

At this point, if there are multiple players with highest score, player who are closest to starting player wins.

*[Example] Player[B] and Player[C] scored 11. In this case, player who are closest to starting player wins, thus, winner of this round are Player[B].*

## End of round

Player who earned score token at this round receives starting player card.

At this time, if any player has earned a second scoring token, that player is the winner of the game and the game ends.

*[Example] Player [B] won this round, and then earned score token and received starting player card.*

## Special rules

This rule uses special cards. It is afforded to play when get used to play basic rules.
